DETAILED ACTION

Allowable Subject Matter

1. Claims 26-35, 37-47, and 49-51 are allowed.
2. The following is an examiner's statement of reasons for allowance: the provision for allowing management devices corresponding to a plurality of management agents to access a system, and a trusted third party controller to mediate interaction among the plurality of management agents by assigning each of the plurality of management agents to a different one of a plurality of ownership domains each with restricted rights, wherein only one of the plurality of management agents can correspond to a top-level ownership domain at a time, and wherein any of the other management agents can revoke the top-level ownership domain is not fairly taught or suggested by the prior art. The further provision for the top-level ownership domain having a first set of extended rights and each of the other ownership domains having a second set of limited rights, wherein the first set of rights and second set of rights include specific limitations as enumerated in the claims is not taught by the prior art. Support for this functionality can be found in the Specification, p. 29, line 19 through p. 35, line 22.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's amendment to incorporate the subject matter of claims 31-38, 42-46, and 48 noted in the previous Office Action dated 10/20/04 into independent form has been accepted by the Examiner. Applicant's amendment of the claims places them in condition for allowance.
